Geeignet zum Sticken, Nähen und Klöppeln. Ideal auch für die Anfertigung von filigranen Schmuckstücken in der „Occhi" -Technik.

Suitable for embroidery, sewing and lace making. Also perfect for filigree jewelry using tatting techniques.

Approprié pour la broderie, la couture et la dentelle. Egalement idéal pour les bijoux très délicats réalisés en "frivolité".

Adatto per il ricamo, cucito e merletto. Ideale anche per creare gioielli ad effetto filigrana con la tecnica "chiacchierino".

Adecuado para el bordado, la costura y encajes. Es también perfecto para la joyería muy delicada realizada en frivolité.

Nakış, dikiş ve dantel yapımı için uygundur. Tatting teknikleri kullanarak telkırma takı için de mükemmeldir.

Отлично подходят для вышивки, шитья и плетения на коклюшках. Идеальны для изготовления филигранных украшений в технике фриволите.

4-fach, teilbares Metalleffektgarn. Jeder Einzelfaden hat die gleiche Garnstärke wie Sticktwist. Daher für alle Zählstoffe geeignet. Erstaunlich weich und angenehm zu versticken dank neu entwickelter Zwirnkonstruktion.

Divisible by stranding into four, each individual strand offers strength and versatility. Surprisingly soft, enabling comfortable embroidering due to the newly developed yarn construction, MADEIRA's Metallic Mouliné is a glistening textured highlight for your designs.

Fil à effet métallique à 4 brins divisibles. Chacun des brins a la même grosseur de fil que le mouliné. Convient donc à toutes les toiles et étamines. Extrêmement doux et agréable à broder grâce à une nouvelle méthode de torsion.

Filato d'effetto metallizzato a 4 capi. Ogni singolo filo ha lo stesso spessore del Mouliné. Per questo motivo si adatta a tutti i tessuti a fili contabili. Il suo innovativo ritorto è meravigliosamente morbido e piacevole da ricamare.

Hilo metálico de efectos divisible de cuatro hebras. Cada una de las hebras posee el mismo grosor que las madejas de hilo tipo mouliné. Por ello, es apropiado para todas las telas de hilos contados. Es asombrosamente suave y agradable de bordar gracias a la recientemente desarrollada técnica de hilo torcido.

4 kat ayrılabilir metalik ipliklerin her bir iplik teli nakış ipliği bükümü ile aynı olduğundan dolayı bütün işleme kumaşlarına uygundur. Yeni geliştirilen iplik yapısı sayesinde inanılmaz yumuşak ve rahat işlenilebilir.

4-хслойные разделяемые нитки. Каждую одинарную нить по толщине можно сравнить с мулине. Поэтому можно вышивать на любой канве. Нити удивительно мягкие и приятные в работе, благодаря новой, специально разработанной технологии.
