

Super Film

Art. 9427 0,5 m x 100 m

Cut Away Stabilizer

Ideal for delicate fabrics. Super Film is a heat-sensitive special clear plasticlike film which disintegrates with a hot dry iron. Works well on speciality fabrics such as satin, velvet and corduroy without puckering. Use for fabrics too delicate for Tear Away, too sheer for Cut Away, or aren't washable at all. Super Film disappears when heat is applied. This perforated foil is the ideal backing for badges, it remains under the stitching, continuing to support it during washing.

Product Details:

Art. 9427

Material: 100% Polyester

Weight: 100 micron

Makeup: Roll

Measurements: 0,5 m x 100 m

Color: Clear

Ideal for:

- Machine embroidery
- Spun lace
- Cut work
- Emblems and logos
